SECTION 2: Hazards identification

- · 2.1 Classification of the substance or mixture
- Classification according to Regulation (EC) No 1272/2008

GHS05 corrosion

Eye Dam. 1 H318 Causes serious eye damage.

GHS07

Skin Irrit. 2 H315 Causes skin irritation. STOT SE 3 H335 May cause respiratory irritation.

Classification according to Directive 67/548/EEC or Directive 1999/45/EC

R37/38-41: Irritating to respiratory system and skin. Risk of serious damage to eyes. Information concerning particular hazards for human and environment:

The product may not leak out in sewerage system, stretch of water or soil.

Continual breath in of product-dust may damage your health.

Breath-in of the material dust can damage health.

The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

Classification system:

The classification is in line with current EC lists. It is expanded, however, by information from technical literature and by information furnished by supplier companies.

· 2.2 Label elements

· Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the CLP regulation.

- · Hazard pictograms GHS05, GHS07
- · Signal word Danger

• 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

(Contd. of page 2)

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents Product is not inflammable.
- 5.2 Special hazards arising from the substance or mixture
- No further relevant information available.
- 5.3 Advice for firefighters
- Protective equipment: Wear self-contained breathing apparatus.
- Additional information Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Follow the emergency-plan.

SECTION 6: Accidental release measures

 6.1 Personal precautions, protective equipment and emergency procedures Avoid causing dust.
 Avoid eye- and skin contact.
 Bring persons out of danger

Bring persons out of danger.

Wear protective equipment. Keep unprotected persons away.

- 6.2 Environmental precautions: Do not allow product to reach sewage system or water bodies.
- 6.3 Methods and material for containment and cleaning up: Ensure adequate ventilation. Pick up the product mechanically, avoid dust formation.
- 6.4 Reference to other sections
 See Section 7 for information on safe handling
 See Section 8 for information on personal protection equipment.
 See Section 13 for information on disposal.

SECTION 7: Handling and storage

- · 7.1 Precautions for safe handling Keep away from children.
- · Information about protection against explosions and fires: No special measures required.
- · 7.2 Conditions for safe storage, including any incompatibilities
- Storage
- · Requirements to be met by storerooms and containers: Protect against wetness and water.
- Information about storage in one common storage facility:
- Please follow the rules of the VCI-Storage-Concept for chemicals. • Further information about storage conditions: Keep container tightly sealed.
- Further information about storage conditions: Keep container lightly seal
- 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- Additional information about design of technical systems: It must be possible to wash the skin in the working area. Eye-wash bottle must be available.
- · 8.1 Control parameters
- · Components with critical values that require monitoring at the workplace:

65997-15-1 Cement, portland, chemicals (25-50%)

WEL Long-term value: 10* 4** mg/m³

*inhalable dust **respirable dust

· Additional information: The lists that were valid during the compilation were used as basis.

SECTION 11: Toxicological information
11.1 Information on toxicological effects
Acute toxicity:
LD/LC50 values that are relevant for classification:
544-17-2 Calciumformiat
Oral LD50 3050 mg/kg (rats)
Dermal LD50 >2000 mg/kg (rats)
Inhalative LC50/4 h >0.67 mg/l (rats)
Primary irritant effect: on the skin: Irritant for skin and mucous membranes.
on the eye: Strong irritant with the danger of severe eye injury.
Sensitisation: No sensitizing effect known.
Additional toxicological information:
The product shows the following dangers according to the calculation method of the General EC Classification Guidelines for Preparations as issued in the latest version:
Irritant
Sensitizing
SECTION 12: Ecological information
12.1 Toxicity
Aquatic toxicity:
544-17-2 Calciumformiat
EC50 >1000 mg/l (bacterial toxicity)
EC50 (48h) $>1000 \text{ mg/l}$ (Daphnia magna)
LC 0 (96h) 1000 mg/l (Brachydanio rerio) 12.2 Persistence and degradability No further relevant information available.
12.3 Bioaccumulative potential No further relevant information available.
12.4 Mobility in soil No further relevant information available.
Additional ecological information:
General notes: Water hazard class 1 (Self-assessment): slightly hazardous for water.
Do not allow undiluted product or large quantities of it to reach ground water, water bodies or
sewage system.
12.5 Results of PBT and vPvB assessment
PBT: Not applicable. vPvB: Not applicable.
12.6 Other adverse effects No further relevant information available.
SECTION 13: Disposal considerations
13.1 Waste treatment methods
Recommendation Must not be disposed of together with household garbage. Do not allow product to reach sowage
Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
European waste catalogue
10 00 00 WASTES FROM THERMAL PROCESSES
10 12 00 wastes from manufacture of ceramic goods, bricks, tiles and construction products
10 12 03 particulates and dust
17 00 00 CONSTRUCTION AND DEMOLITION WASTES (INCLUDING EXCAVATED SOIL FROM CONTAMINATED SITES)
17 01 00 concrete, bricks, tiles and ceramics
